

How to make a phoneme game

Instructions:

Scroll down to the game number that corresponds to your Breakout Room number, i.e. breakout room 1 = Game 1

Sample Game:

Can you find your way through the maze from the yellow rectangle at the top to the yellow rectangle at the bottom? To help you get there, look for all the words that have the /t/ sound at the end of the past participles.

You can go **up** (↑), **down** (↓), **left** (←), and **right** (→) but you can't go diagonally!

Before doing this game, you might want to show this video to your learners to help them distinguish the words with the final /t/ sound.
